Now's the time to:  
Replace manual cleaning  
Renew older equipment  
Upgrade existing equipment

# Time for change with System4Lab.

**Times are changing, and the reprocessing of lab glassware is no exception.**

**With a Miele lab washer you can now save money and enjoy the many benefits:**

- ✓ Combine maximum cleaning with optimum glass protection
- ✓ Automate cleaning processes and reduce time and effort for lab staff
- ✓ Increase efficiency with more capacity and special wash programmes
- ✓ Reduce water, energy and chemical wastage
- ✓ Excellent cost efficiency

Miele Professional lab washers make a valuable contribution to sustainable lab glass reprocessing. The System4Lab concept combines thorough cleaning and disinfection programmes with carefully selected chemicals. Not only that but intelligent process documentation software and long term archiving of reprocessing operations means you have all the data at your fingertips. What's more, with award winning quality and reliability, coupled with comprehensive Miele aftersales care and support you have total peace of mind.

# Pure results for analytical experiments **with a saving**

## 1. Replace manual cleaning

Benefit from a solution that will deliver consistently thorough cleaning quickly and easily, freeing up your staff for other duties.

## 2. Renew older equipment

Enjoy improved quality control, greater reliability and reduced wastage with a Miele glass washer.

## 3. Upgrade existing equipment

With varying reprocessing requirements, upgrading to a lab washer with a larger load capacity offers you greater flexibility and further efficiencies.

**Make the change today to enjoy these benefits and many more.**
